Installeren RD is een stekerbaar installatiesysteem gebaseerd op voorbedrade centraaldozen of kabeldozen in combinatie met prefab gemonteerd schakelmateriaal en een stekerbare groepenkast. Deze onderdelen worden met soepele kabels met ronde connectoren aangesloten. De installatietijd wordt daardoor sterk bekort, en faalkosten worden tot een minimum beperkt. 100% Installeren is een samenwerkingsverband van Gira, Jung, PEHA, WAGO en Attema.
