

Consolidation Box

Data cable entry

- The slide-in data lead-in, made of soft rubber, is suitable for the lead-in of a maximum of 3 data cables (UTP, FTP, STP etc.).
- Provides grip on the cable sheath without untwisting the conductor pairs or in any other way influencing the data transmission.

Article no:	AT1966
EAN:	8712259220383
Amount Packaging	5 x 10 st.
Suitable for built-in installation box	No
Suitable for junction box	No
Suitable for cable box	Yes
Suitable for expansion ring	No
For tube diameter	-
Number of conduit lead-ins	
Dispatch	50

The Consolidation Box from Attema makes it possible to install ICT cabling in a flexible manner, because the installation is divided into two steps. The largest portion of the work takes place during the rough construction, at the same time as the other cabling is installed in the building. As a result, you only have to install a small portion of the ICT cabling during the finishing phase. The Consolidation Box complies with the installation standards of EIA/TIA 568A/B, ISO 11801 and NEN-EN 50173.
