

Flexible conduit

**Closure plug Ø 12,5 mm, natural**

· Suitable for 16 mm electroflex.

Article no:	AT2770
EAN:	8712259003153
Colour	-
Amount Packaging	1000 st.
diameter	12,5 mm
Material	Plastic
Material quality	-
Suitable for rigid tubes	No
Suitable for flexible tubes	Yes
Suitable for pliable tubes	Yes
Air tight	Yes
Pushthrough membrane	Yes
Dispatch	1000

Attema has a wide range of flexible conduits for various applications.

Such as ZeroH-flex: halogen-free electroflex, where high(er) demands are made on fire-safe installations. Flame-retardant. KEMA approved according to NEN-EN-IEC 61386-1 and -22.

Electroflex for standard electrical applications.

Attaflex, a halogen-free PE-conduit, resistant to higher temperatures and therefore especially suitable for use in concrete. Mantaflex: conduits suitable as thermal insulation material, for central heating or water pipes for instance. Can also be used as a protective hose for electrical connections of machines. And halogen-free Nylonflex, especially suitable for cables in situations where no toxic and corrosive gases may be released in the event of a fire.
