

Hybrid FiberManagement Plate

Fibre management plate (FMP), 192 fibres, CSP, 16 outlets, loop

- 16 hybrid entry ports Ø5,5 - 10,0 mm.
- Flexibility in the FTTX concept.
- Flexibility in fiber network management.
- Integrated strain relief per cable / duct.
- Easy entry seal for each individual cable or duct.
- Structured fibre optic management.
- IP68
- Easy to install.
- Window Cut.

Article no:	AT29386
EAN:	8712259542188
Height	
Width

APC-version	No
Number of height units	
Suitable for number of couplings/adapters	
Suitable for number of module inserts	
With number of couplings/adapters	
With front plate	No
With housing	No
With pigtails	No

The FiberManagement Plate(FMP) in combination with our Distribution Closure is an underground distributionpoint. This concept has been developed for a maximum of 48 direct buried Fiber to the Home customercables or duct. The FMP has been designed to separate the civil work and the welding of the fibers. The welding will be done at a later time. With this concept the process of civil work and welding will be optimized. This is due to preassembled parts, the compact size and it is easy to install. This makes the FMP a great fit as an underground distributionpoint. The FMP is also available with a window cut.
