Number of earth leakage switches 30 mA Number of earth leakage switches 300 mA With transparent cover No Protection Miniature- / earth leakage circuit breaker Total number of groups Number of direct groups Number of light groups Solution Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch Protection incoming RCD Protection high integrity No Protection split load Protection dual RCD Number of outgoing ways 18 Suitable for data No None	Lockable	Yes
Number of earth leakage switches 300 mA With transparent cover Protection Miniature- / earth leakage circuit breaker Total number of groups S Number of direct groups Number of groups S Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch Protection incoming RCD Protection high integrity No Protection dual RCD Number of outgoing ways 18 Suitable for data No No No No No No No No No N	Over voltage protection	No
With transparent cover Protection Miniature- / earth leakage circuit breaker Total number of groups S Number of direct groups Number of light groups S Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch 2 Main switch rated current 40 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways 18 Suitable for data No None	Number of earth leakage switches 30 mA	2
Protection Miniature- / earth leakage circuit breaker Total number of groups 5 Number of direct groups Number of light groups 5 Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch 2 Main switch rated current 40 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways 18 Suitable for data No Cooker group None	Number of earth leakage switches 300 mA	
Total number of groups Number of direct groups Number of light groups S Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch 2 Main switch rated current 40 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways 18 Suitable for data No Cooker group Nome	With transparent cover	No
Number of direct groups Number of light groups Solumber of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch No Number of poles main switch Aunin switch rated current Aunin switch rated current Aunin switch rated current Aunin switch rated current No Protection high integrity Protection split load No Protection dual RCD No Number of outgoing ways No Suitable for data No Cooker group None	Protection	Miniature- / earth leakage circuit breaker
Number of light groups Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch No Number of poles main switch Protection incoming RCD No Protection high integrity No Protection split load Protection dual RCD Number of outgoing ways No Suitable for data No Cooker group None	Total number of groups	5
Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load Protection dual RCD Number of outgoing ways 18 Suitable for data No Cooker group No Number of outgoing ways No No No No No No No No No N	Number of direct groups	
Switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Add A Protection incoming RCD No Protection high integrity No Protection split load Protection dual RCD No Number of outgoing ways 18 Suitable for data No Cooker group None	Number of light groups	5
Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch Au Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load Protection dual RCD No Number of outgoing ways Suitable for data Cooker group No No No No No None	J .	5
Protection main switch Number of poles main switch Nain switch rated current A0 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data No Cooker group No	Number of earth leakage circuit breakers	
Number of poles main switch2Main switch rated current40 AProtection incoming RCDNoProtection high integrityNoProtection split loadNoProtection dual RCDNoNumber of outgoing ways18Suitable for dataNoCooker groupNone	Number of arc fault detection devices AFDD	
Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD Number of outgoing ways Suitable for data Cooker group No No No None	Protection main switch	No
Protection incoming RCD Protection high integrity Protection split load Protection dual RCD No Number of outgoing ways Suitable for data Cooker group No No No No None	Number of poles main switch	2
Protection high integrity Protection split load Protection dual RCD No Number of outgoing ways Suitable for data Cooker group No No No No None	Main switch rated current	40 A
Protection split load No Protection dual RCD No Number of outgoing ways 18 Suitable for data No Cooker group None	Protection incoming RCD	No
Protection dual RCD No Number of outgoing ways 18 Suitable for data No Cooker group None	Protection high integrity	No
Number of outgoing ways 18 Suitable for data No Cooker group None	Protection split load	No
Suitable for data Cooker group No No	Protection dual RCD	No
Cooker group None	Number of outgoing ways	18
2.2	Suitable for data	No
Cooker group suitable as power current group No	Cooker group	None
	Cooker group suitable as power current group	No
With socket outlet No	With socket outlet	No
With bell transformer No	With bell transformer	No

Type of over voltage protection device	-
With meter	No
Built-in depth	55 mm

The new generation of Click-mate NXT distribution boxes is available in various editions: The compact S distribution cabinet with 12 modules, the familiar M distribution cabinet with space for 2 x 12 modules and the innovative L distribution cabinet with 2 x 18 modules; the solution for the energy transition and extensive 3-phase installations. The distribution boxes are also completely modular and can easily be installed next to or underneath each other. The distribution boxes in the extensive range are equipped with earth leakage circuit breakers (2P, 40A, 30mA) and circuit breakers (1P+N, 16A, B-characteristic) and are optionally available with a stove group and/or bell transformer.
