Number of light groups Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Number of poles main switch Adain switch rated current Adain switch Adain	Total number of groups	
Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Main switch rated current 63 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group Noe Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Number of direct groups	
Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Main switch rated current 63 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Number of light groups	
Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Main switch rated current 63 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No		
Protection main switch Number of poles main switch Main switch rated current 63 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Number of earth leakage circuit breakers	
Number of poles main switch Main switch rated current 63 A Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Number of arc fault detection devices AFDD	
Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Protection main switch	No
Protection incoming RCD Protection high integrity No Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data No Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Number of poles main switch	4
Protection high integrity Protection split load Protection dual RCD No Number of outgoing ways Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer Type of over voltage protection device With meter No	Main switch rated current	63 A
Protection split load No Protection dual RCD No Number of outgoing ways Suitable for data No Cooker group None Cooker group suitable as power current group No With socket outlet No With bell transformer No Type of over voltage protection device - With meter No	Protection incoming RCD	No
Protection dual RCD Number of outgoing ways Suitable for data No Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Protection high integrity	No
Number of outgoing ways Suitable for data No Cooker group None Cooker group suitable as power current group No With socket outlet No With bell transformer No Type of over voltage protection device - With meter No	Protection split load	No
Suitable for data Cooker group None Cooker group suitable as power current group With socket outlet No With bell transformer No Type of over voltage protection device With meter No	Protection dual RCD	No
Cooker groupNoneCooker group suitable as power current groupNoWith socket outletNoWith bell transformerNoType of over voltage protection device-With meterNo	Number of outgoing ways	
Cooker group suitable as power current group No With socket outlet No With bell transformer No Type of over voltage protection device - With meter No	Suitable for data	No
With socket outlet No With bell transformer No Type of over voltage protection device - With meter No	Cooker group	None
With bell transformer No Type of over voltage protection device - With meter No	Cooker group suitable as power current group	No
Type of over voltage protection device - With meter No	With socket outlet	No
With meter No	With bell transformer	No
	Type of over voltage protection device	-
Built-in depth 55 - 55 mm	With meter	No
	Built-in depth	55 - 55 mm

Product data sheet

Main switch boxes without output bridge. Easy to install under the Click-mate NXT Distribution boxes or expansion boxes.
