Number of earth leakage switches 300 mA With transparent cover No Protection Miniature- / earth leakage circuit breaker Total number of groups 11 Number of direct groups Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Adain switch rated current Protection high integrity No Protection split load No	Over voltage protection	No
With transparent cover Protection Miniature- / earth leakage circuit breaker Total number of groups 11 Number of direct groups Number of light groups 11 Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch 4 Main switch rated current 40 A Protection high integrity No Protection split load No	Number of earth leakage switches 30 mA	3
Protection Miniature- / earth leakage circuit breaker Total number of groups 11 Number of direct groups Number of light groups 11 Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch 4 Main switch rated current 40 A Protection incoming RCD No Protection split load No	Number of earth leakage switches 300 mA	
Total number of groups Number of direct groups Number of light groups 11 Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Alight Switch rated current Alight Aprotection high integrity No Protection split load 11 Namber of groups 11 No No No No No No No No No	With transparent cover	No
Number of direct groups Number of light groups 11 Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Auni switch rated current Protection incoming RCD Protection high integrity No Protection split load No	Protection	Miniature- / earth leakage circuit breaker
Number of light groups Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Nain switch rated current Protection incoming RCD Protection high integrity No Protection split load No No	Total number of groups	11
Number of groups behind earth leakage switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load No	Number of direct groups	
switch Number of earth leakage circuit breakers Number of arc fault detection devices AFDD Protection main switch Number of poles main switch Main switch rated current Protection incoming RCD Protection high integrity No Protection split load No	Number of light groups	11
Number of arc fault detection devices AFDD Protection main switch No Number of poles main switch Main switch rated current Protection incoming RCD No Protection high integrity No Protection split load No		11
Protection main switch Number of poles main switch Main switch rated current 40 A Protection incoming RCD No Protection high integrity No Protection split load No	Number of earth leakage circuit breakers	
Number of poles main switch4Main switch rated current40 AProtection incoming RCDNoProtection high integrityNoProtection split loadNo	Number of arc fault detection devices AFDD	
Main switch rated current 40 A Protection incoming RCD No Protection high integrity No Protection split load No	Protection main switch	No
Protection incoming RCD No Protection high integrity No Protection split load No	Number of poles main switch	4
Protection high integrity No Protection split load No	Main switch rated current	40 A
Protection split load No	Protection incoming RCD	No
	Protection high integrity	No
Protection dual RCD No	Protection split load	No
	Protection dual RCD	No
Number of outgoing ways 28	Number of outgoing ways	28
Suitable for data No	Suitable for data	No
Cooker group None	Cooker group	None
Cooker group suitable as power current group No	Cooker group suitable as power current group	No
With socket outlet No	With socket outlet	No

With bell transformer	No
Type of over voltage protection device	-
With meter	No
Built-in depth	55 mm

The new generation of Click-mate NXT distribution boxes is available in various editions: The compact S distribution cabinet with 12 modules, the familiar M distribution cabinet with space for 2 x 12 modules and the innovative L distribution cabinet with 2 x 18 modules; the solution for the energy transition and extensive 3-phase installations. The distribution boxes are also completely modular and can easily be installed next to or underneath each other. The distribution boxes in the extensive range are equipped with earth leakage circuit breakers (2P, 40A, 30mA) and circuit breakers (1P+N, 16A, B-characteristic) and are optionally available with a stove group and/or bell transformer.
